

Colorado Open Records Act Request

November 17, 2022

City of Boulder
Central Records
1777 Broadway
Boulder, CO 80302

Re: Certain Correspondence

Via Email: centralrecords@bouldercolorado.gov

Dear Sir or Madam:

On behalf of Energy Policy Advocates, a non-profit public policy institute with a practice area in government transparency, pursuant to the Colorado Open Public Records Act, C.R.S. § 24-72-201 to 206, please provide copies of the following records, and any accompanying information, including also any attachments:

1. All electronic correspondence, be it email, text/SMS/MMS message, or on an App such as Signal, WhatsApp and/or Telegram, sent from February 1, 2022 through November 17, 2022, inclusive, to, from, or copying Jonathan Koehn, Director of the City of Boulder Department of Climate Initiatives, which includes, *anywhere*, a) @climateintegrity.org, b) CCI, c) Hansen, d) Heede, e) Galpern, and/or f) @CPRclimate.org, be it in an email address, subject field, body of an email/message or thread, or any attachments.

We request entire threads of which any responsive correspondence is a part, regardless of whether any portion falls outside of the above time parameter. To narrow this request, please consider as non-responsive electronic correspondence that merely receives or forwards press clippings, such as news services or stories or opinion pieces, if that correspondence has no comment or no substantive comment added by a party other than the original sender in the

thread (an electronic mail message that includes any expression of opinion or viewpoint would be considered as including substantive comment; examples of non-responsive emails would be those forwarding a news report or opinion piece with no comment or only “fyi”, or “interesting”).

We understand that a public body may charge a fee for the cost of the search, examination, review, copying, separation of confidential from nonconfidential information, and mailing costs. If your Office expects to seek a charge associated with the searching, copying or production of these records, however, please provide an estimate of anticipated costs. Given EPA’s non-profit and public interest nature and intention to broadly disseminate relevant findings, EPA requests a waiver or reduction of any applicable fees.

We do not demand your Office produce requested information in any particular format, instead **we request records in their native form, with specific reference to the U.S.**

Securities and Exchange Commission Data Delivery Standards.¹ The covered information we seek is electronic information, this includes electronic *records*, and other public *information*.

To quote the SEC Data Delivery Standards, “Electronic files must be produced in their native format, i.e. the format in which they are ordinarily used and maintained during the normal course of business. For example, an MS Excel file must be produced as an MS Excel file rather than an image of a spreadsheet. *(Note: An Adobe PDF file is not considered a native file unless the document was initially created as a PDF.)*” (emphases in original).

In many native-format productions, certain public information remains contained in the record (e.g., metadata). Under the same standards, to ensure production of all information

¹ <https://www.sec.gov/divisions/enforce/datadeliverystandards.pdf>.

requested, if your production will be de-duplicated it is vital that you 1) preserve any unique metadata associated with the duplicate files, for example, custodian name, and, 2) make that unique metadata part of your production.

Native file productions may be produced without load files. However, native file productions must maintain the integrity of the original meta data, and must be produced as they are maintained in the normal course of business and organized by custodian-named file folders. A separate folder should be provided for each custodian.

In the event that necessity requires your Office to produce a PDF file, due to your normal program for redacting certain information and such that native files cannot be produced as they are maintained in the normal course of business, in order to provide all requested information each PDF file should be produced in separate folders named by the custodian, *and* accompanied by a load file to ensure the requested information appropriate for that discrete record is associated with that record. The required fields and format of the data to be provided within the load file can be found in Addendum A of the above-cited SEC Data Standards. All produced PDFs must be text searchable.

We look forward to your response. If you have any questions, do not hesitate to contact me by email at Schilling@allhookedup.com.

Sincerely,
Rob Schilling
Executive Director, Energy Policy Advocates
