

**REQUEST UNDER OREGON PUBLIC RECORDS LAW**

July 29, 2022

Jackie Bangs  
Public Records Officer  
University Relations and Marketing  
Oregon State University  
204 Kerr Administration  
Corvallis, Oregon 97331

**By Electronic Mail:** publicrecords@oregonstate.edu  
**Re:** Certain correspondence

Dear Ms. Bangs or Records Officer:

On behalf of Energy Policy Advocates (EPA), a non-profit public policy institute organized under the laws of Washington state, and pursuant to the Oregon Public Records Law, ORS 192.311, *et seq.*, I hereby request copies of **all electronic correspondence which was sent to or from (including copying, whether as cc: or bcc:) lubchenco@oregonstate.edu, that are: i) dated at any time from January 1, 2022 through February 25, 2022, inclusive, and ii) are also sent to one or more of a) Naomi Oreskes, b) Katherine Hayhoe, c) Shahzeen Attari, d) Gernot Wagner, and/or e) Marshall Shepherd.**

We understand that in some instances a public body may charge a fee for the cost of the search, examination, review, copying, separation of confidential from nonconfidential information, and mailing costs. If your Office expects to seek a charge associated with the searching, copying or production of these records, please provide an estimate of anticipated costs.

As noted earlier in this request, EPA is a non-profit public policy organization dedicated to informing the public of developments in the area of energy and environmental issues and

relationships between governmental and non-governmental entities as they relate to those issues. EPA's ability to obtain fee waivers is essential to this work. EPA intends to use any responsive information to continue its work highlighting the nexus between interested non-governmental entities and government agency decision-making. The public is both interested in and entitled to know how regulatory, policy and enforcement decisions are reached. EPA ensures the public is made aware of its work and findings via media, its website [epadvocates.org](http://epadvocates.org). The public information obtained by EPA have been relied upon by established media outlets, including the Washington Times and Wall Street Journal editorial page.<sup>1</sup>

Energy Policy Advocates requests records on your system, e.g., its backend logs, and does not seek only those records which survive on an employee's own machine or account. We do not demand your office produce requested information in any particular form, instead **we request records in their native form**, with specific reference to the U.S. Securities and Exchange Commission Data Delivery Standards.<sup>2</sup> The covered information we seek is electronic information, this includes electronic *records*, and other public *information*.

To quote the SEC Data Delivery Standards, "Electronic files must be produced in their native format, i.e. the format in which they are ordinarily used and maintained during the normal course of business. For example, an MS Excel file must be produced as an MS Excel file rather than an image of a spreadsheet. ***(Note: An Adobe PDF file is not considered a native file unless the document was initially created as a PDF.)***" (emphases in original).

---

<sup>2</sup> <https://www.sec.gov/divisions/enforce/datadeliverystandards.pdf>.

In many native-format productions, certain public information remains contained in the record (e.g., metadata). Under the same standards, to ensure production of all information requested, if your production will be de-duplicated it is vital that you 1) preserve any unique metadata associated with the duplicate files, for example, custodian name, and, 2) make that unique metadata part of your production.

Native file productions may be produced without load files. However, native file productions must maintain the integrity of the original meta data, and must be produced as they are maintained in the normal course of business and organized by custodian-named file folders. A separate folder should be provided for each custodian.

In the event that necessity requires your office to produce a PDF file, due to your normal program for redacting certain information and such that native files cannot be produced as they are maintained in the normal course of business, in order to provide all requested information each PDF file should be produced in separate folders named by the custodian, *and* accompanied by a load file to ensure the requested information appropriate for that discrete record is associated with that record. The required fields and format of the data to be provided within the load file can be found in Addendum A of the above-cited SEC Data Standards. All produced PDFs must be text searchable.

We look forward to your response. If you have any questions, do not hesitate to contact me by email at [schilling@allhookedup.com](mailto:schilling@allhookedup.com)

Sincerely,  
Rob Schilling  
Executive Director  
Energy Policy Advocates
